 - (i) It is registered with its name three working days before the closing date of entries for the race in which it is due to take part in the Arab Horse Society's Stud Books for Pure Bred Arabians or in another Pure Bred Stud Book listed as acceptable to the World Arabian Horse Organisation in its Arabian Horse Definition, and it has a Passport bearing the registered name, which must comply with the requirements listed in Appendix 38 to these Regulations.
 - (ii) It was first registered in the country where it was foaled.
 - (iii) It is registered before the closing date of entries or supplementary entries for the race in which it is due to take part with ARO. Any registration made within three working days of the closing date of entries or supplementary entries will incur an additional fee as set out in Regulation 92. The application must be accompanied by a copy of the Passport and, where the horse is foaled outside Great Britain and trained in Great

Britain, it must also be accompanied by a certificate of age and markings signed by a Veterinary Surgeon resident in Great Britain.

- (iv) its Passport shows evidence from a Veterinary Surgeon that it has been implanted with an identifying microchip.
 - (v) it has been parentage identified to a minimum of two generations and its pedigree contains named horses throughout in a minimum of two generations, to the satisfaction of ARO.
16. No horse shall be eligible to be entered or to run in any Arabian Horse Race under these Regulations, which:

18. No Race can combine two horses with the same year of birth and the same dam. Where two or more horses have the same year of birth and the same dam they will be reduced to one by random ballot at the time for declaration under Regulation 80. Any horse bred by embryo transfer must be declared as such at the time of entry and failure to make such declaration will cause the horse to be subject to disqualification under Regulation 97 (viii)

IDENTIFICATION AND VACCINATION

19. The Trainer must ensure that every horse that enters any racecourse when a meeting held under these Regulations takes place is accompanied by its Passport giving a complete and up to date vaccination record signed by a Veterinary Surgeon, who is unrelated to and independent of the Owner of the horse, the Trainer of the horse and any Person who is employed by the Trainer. Such a document must show in both cases that it has received two primary vaccinations against Equine Influenza, which has been given no less than 21 days apart and no more than 60 days apart. In addition, where sufficient time has elapsed subsequent to the primary vaccinations the vaccination section of the Passport must be completed to show that:
- two primary vaccinations administered not less than 21 days and not more than 60 days apart;
- if sufficient time has elapsed since the primary vaccination:
- (i) a booster vaccination which is administered not less than 120 days and not more than 180 days after the second component of the primary vaccination; and
 - (ii) further booster vaccinations at intervals of not more than 6 months apart.
 - (iii) A horse which fails to satisfy these requirements is not qualified to run, unless the Stewards direct otherwise.

From 01 January 2022, the primary course and booster interval schedule for Equine Influenza vaccinations will be amended as follows:

	CURRENT INTERVAL	INTERVAL FROM 1 JANUARY 2022
VAC 1		
VAC 2	21 – 92 days	21 – 60 days
VAC 3	150 – 215 days	120 – 180 days
BOOSTER	Not more than 1 year apart	Not more than 6 months apart

<https://rules.britishhorseracing.com/#!/book/34/chapter/s3534-vaccinations-code/content>

The changes are as a result of consultation and agreement by the European Horserace Scientific Liaison Committee (EHSLC) Board and the aim for harmonisation of Rules and Regulations across all of the European Racing Authorities.

The BHA and Irish Horseracing Regulatory Board (IHRB), who have also introduced the new intervals from 1 January 2022, have coordinated their approach and staggered the implementation of the full requirement for those horses who were correctly vaccinated as at 31 December 2021 – see below

It should also be noted that the new primary course and booster intervals were implemented in both France and Germany on 05 May 2021, so horses entered to race in these jurisdictions must already be compliant with the new requirements.

Primary course intervals

- Primary course intervals are only required for horses that have not yet been administered a primary course or are required to re-start a new primary course.
- Horses that have a compliant primary course and compliant subsequent boosters up to and including 31 December 2021 **do not** have to re-start the vaccination process.
- Any horse that started a new primary course, up to and including 31 December, should continue with the current intervals, even if V2 and V3 are administered in 2022.
- Any horse starting a primary course from 01 January 2022 must comply with the new intervals.

Six-monthly boosters

- Boosters should be administered no more than six months apart, according to calendar months rather than a fixed number of days. For example, a horse that is fully vaccinated on 01 January would require a booster on or before 01 July.
- We ask that trainers seek to move to the new vaccination schedule as soon as practicable. However, to help trainers implement the changes with minimal disruption to training, horses should be fully compliant with the new requirements by 01 January 2023.
- This means that before 01 January 2023, race entry will not be refused on the ground of having not yet commenced six-monthly boosters.
- As of 01 January 2023, an Entry for a Race, or a Confirmation of Entry in respect of Early Closers, will not be accepted for any horse unless its vaccination record shows a vaccination in the last six months.
- To be clear: all horses must have a compliant vaccination record by 01 January 2023 (i.e.) all horses must have been administered a booster within six months of 01 January 2023.
 - Horses which are due an annual booster between 01 January 2022 – 30 June 2022 will require a booster vaccination between 01 July 2022 – 31 December 2022 in order to be compliant by 01 January 2023.
 - Horses which are due an annual booster between 01 July 2022 – 31 December 2022 will be compliant by 01 January 2023.
NB horses which are vaccinated on 01 July 2022 will be due their next booster on or before 01 January 2023.
- As under the existing Rules, there is no minimum interval for boosters.
- Horses which do not have a compliant vaccination record as of 01 January 2023 will be required to re-start. Horses which have an interval of over six months between boosters will be required to re-start.

N.B.1 The above are minimum requirements. The vaccines administered must either appear on the list of equine influenza vaccinations which is maintained by BHA or be acceptable to a Veterinary Officer and in general should be given according to the manufacturer's instructions. In many cases booster injections are recommended at intervals of less than twelve months.

N.B.2. All vaccination intervals referred to above are to be calculated by ignoring the day of the vaccination and counting the day of the race.

20. A Passport will not be regarded as being completed as required under Regulation 19 if any record of vaccinations against Equine Influenza is altered in any way. An incorrect entry must be deleted and a new entry made, signed by the Veterinary Surgeon who was responsible for giving the vaccination or by a Veterinary Surgeon who has received confirmation of the correct details of the vaccination from the Veterinary Surgeon who gave the vaccination or a representative of that Veterinary Surgeon.
21. The Trainer must ensure that every horse trained by him has each of its vaccinations recorded in Equine MediRecord, and that this record matches that in the Passport, unless ARO directs otherwise.
22. When a horse has been declared to run under Regulation 80 for:
 - (i) the first time in Great Britain, or
 - (ii) it is trained outside Great Britain, or
 - (iii) it has changed Trainer and is running for the first time for the new Trainer, or
 - (iv) it is required for a routine vaccination or health check,

it shall be the responsibility of the Trainer to ensure the passport is presented to the Equine Welfare and Integrity Officer for verification not less than three-quarters of an hour before the advertised time of the race. If the identity of the horse is not correctly verified the horse will not be qualified to run.

23. On each occasion when a horse trained outside Great Britain and Ireland is to race under these Regulations, a Racing Clearance Notification (RCN) must be submitted to ARO no later than the deadline for declaration under Regulation 80. The horse will not be eligible to be declared under Regulation 80 unless an acceptable Racing Clearance Notification (RCN) has been received.
24. On each occasion when a horse registered with ARO is to race outside Great Britain and Ireland the Trainer must request, no later than the deadline for declaration, that the ARO Office submits a Racing Clearance Notification (RCN) to the Recognised Racing Authority staging the race. A fee is payable in relation to a request to submit a RCN to a Recognised Racing Authority.

PART 4A

Owners, part-owners, company owners and managing owners shall be registered annually by the ARO Office for the purpose of Arabian Horse Racing under these Regulations upon the prescribed form, subject to such restrictions and conditions as ARO considers necessary, on payment of the relevant annual fee and sign a declaration agreeing to be bound by these Regulations currently in force. Any registration made within two weeks of the closing date of entries or supplementary entries may incur an additional fee as set out in Regulation 92.

26. Multiple ownerships shall register annually upon the prescribed form to the ARO Office, pay the relevant fee and make use of one of the following titles when entering and running horses:

“The.....Club”

28. Any leasing agreement affected under Regulation 27 is subject to an annual registration fee.
29. The name of the Owner must be given at the time of entry and the horse must run under that name. In the event of there being any change in the membership of the partnership or syndicate ARO must be notified within seven days, or immediately if the horse has any outstanding entries.
30. If a horse changes ownership during the season the ARO Office must receive a new Racehorse in Training form and, where appropriate, a completed Authority to Act and/or Transfer of Engagements on the prescribed form(s) within 7 days, or immediately if the horse has any outstanding entries.

RACING COLOURS

31. Every owner in whose name a horse is to run is required to register colours annually with the ARO Office and pay the relevant fee. Colours duly registered shall not be taken by any other person for the purpose of racing under these Regulations. Colours shall be registered upon the prescribed form and such registration is subject to such restrictions and conditions as ARO considers necessary. Single colours or colours, which, in the opinion of ARO, are famous or well-known colours will not be registered by ARO unless the applicant has such colours currently registered with the BHA.
32. In the case of horses trained abroad a declaration of colours to the ARO Office for each race by the time fixed for declaration of runners in the conditions of the race is acceptable in lieu of registration of colours, provided the Owner has registered those colours abroad.
33. Subject to Regulation 34, if any owner runs a horse in colours that are not registered to him, he shall be taken to have contravened a requirement imposed on him by this Regulation, unless the circumstances under which this occurred are acceptable to the Stewards.
34. When an owner has more than one runner in the same race an amendment to their colours must be declared at the time of declaration under Regulation 80 and, if the Judge deems it necessary, an owner may be asked to further amend his colours.
35. Any Owner who has been declared a disqualified person under the Rules of Racing, the Rules of any other Recognised Racing Authority or these Regulations (*See Regulations 103 and 104*), or who has been prohibited from participation in Recognised Meetings under Regulation 2, shall have their registration cancelled immediately.

Any registration made within two weeks of the closing date of entries or supplementary entries may incur an additional fee as set out in Regulation 92. 46. On each occasion that a horse has had Wind Surgery the Trainer must inform ARO of the type of Wind Surgery undertaken. No notification is necessary if the horse has never previously raced. Notification must be made before the horse is declared to run under Regulation 80 and the responsibility for making such notification rests with the Trainer at the time of the declaration. Disciplinary Action may not be taken in respect of a contravention of this Regulation if the Trainer satisfies the BHA that he took all reasonable precautions and exercised all due diligence to ascertain whether or not the horse had had Wind Surgery. A horse which has been subject to a Neurectomy shall be permanently ineligible to race (see Regulation (viii)). A Neurectomy is defined as a procedure which permanently interferes with a specific and anatomically recognised nerve using surgery, cryosurgery, chemical interference or any other means resulting in desensitization of any part of the limb.
48. A Trainer must inform ARO of the arrival at their yard of each new horse, if he has more than one yard, of any change in location of a horse under their care or control and of any change in ownership of a horse under their care or control. The information must be provided no later than 3 days after such event or, if sooner, before any further race entry is made.
49. On each occasion when a horse trained in Great Britain has run in a race outside Great Britain the Trainer must notify ARO of the details of its racecourse performance. This information must be notified within 48 hours of the horse's return to Great Britain, or, if the horse has an entry for a race in Great Britain as soon as reasonably possible after the horse's return to Great Britain.
50. Where a horse arrives from outside Great Britain or Ireland the Trainer must provide ARO with details of the horse's racecourse performances before the horse is next entered into or declared for a race.
51. Where a horse undergoes surgery for the placement of a suprachoroidal cyclosporine implant, a Trainer must inform ARO within 7 days of surgery with a certificate signed by a Veterinary Surgeon to this effect.

PART 5

53. It shall be a breach of these Regulations for any Jockey to Bet or to lay any horse to lose a race with a Betting Organisation or to instruct any person on their behalf to do so or to receive the whole or any part of the proceeds of such an act, except that an Amateur Jockey may bet on races in which they are not riding.

If no period is specified, the rider must still be passed as fit to ride by a Medical Officer.
61. Where a Rider sustains a reportable injury since last riding under these Regulations, the BHA Regulations for Point-to-Point Steeple Chases or the BHA Rules of Racing, he must inform the Medical Officer of that fact and must not weigh out or attempt to weigh out until he is passed fit to ride by the Medical Officer on a race day. A reportable injury is:

 - (ii) Ensure that a numbered armband or tabard for each horse attendant is provided.
64. Conditions for races will be drawn up by ARO.
65. Prizes shall be decided by ARO.
66. Application for authorisation of Races and Meetings under these Regulations for Arabian Horse Racing, giving the proposed date and place of each Race or Meeting, shall be made by ARO to the BHA annually. A fee, the amount of which the BHA shall from time to time decide in respect of each fixture is payable.

PART 7

GENERAL REGULATIONS FOR PROGRAMMES

67. ARO under the authority of the BHA will publish a list of race meetings to be held each year, together with such details as it considers appropriate.
68. The Programme of each meeting shall be published in the ARO Racing Calendar and shall contain:
- (i) A notice to the effect that "This meeting is held under the British Horseracing Authority Regulations for Arabian Horse Racing".
 - (ii) The conditions for every race, and the minimum weights to be carried.
 - (iii) The date and place of the meeting and where necessary that it will be on an All-Weather Track.
 - (iv) The name and address of the Receiver of Entries, together with the date of their closing, and, where applicable, the date for the declaration of forfeit.
69. The names of the Stewards, Clerk of the Course, Clerk of the Scales, Judge, Starter, Handicapper, Veterinary Officer and Medical Officer will be published in the Race Card or publicly displayed on a Notice Board.
70. Any amendment to the race conditions, through omission or error, must be approved by the BHA.

ENTRIES, DECLARATIONS AND DIVISIONS

71. Entries shall open and close at the times advertised in the Programme and no entry shall be admitted on any ground after that time unless the conditions of the race provide for a supplementary list of entries or in accordance with Regulation 73 below, or where in exceptional circumstances ARO deems it expedient to do so. Where provision is made for a supplementary list of entries such entries shall be closed at the advertised time and no entry shall be admitted on any ground after that time. Entries shall be made by telephone to the ARO Office or email or by such means as may be agreed with the ARO Office. In the case of entries made by email the person making the entry should check acknowledgement of the receipt of the entry to ensure that the transaction has been properly completed.
72. A race may be cancelled at the discretion of ARO at the entry stage unless it is a Group or Listed race. In the event of a race being cancelled by ARO a substitute race, at the discretion of ARO, may replace the race cancelled in the Programme. The conditions of any proposed substitute race will be advertised beforehand on the ARO website.
73. In any race where seven or fewer entries have been received at the ARO Office by the time of entry the said race may be subject to a re-opening entry procedure which shall operate up to 9.15am on the following day or such other time as ARO shall decide. No entry once made as a result of the provisions of this Regulation shall be subject to withdrawal.
74. Entries and declarations will only be accepted from Owners registered in accordance with the requirements of Regulations 25 to 30 or shall be made in the name of the Owner(s) or the registered partnership or company name by the Trainer in accordance with Regulation 36.
75. Each entry shall state the name of the horse, the names of its Owner and its Trainer both of whom must be registered in accordance with the requirements of Regulations 25 to 30 and 37 respectively.
76. In the case of horses from abroad, each entry shall state the name of the horse, its age, sex, colour, sire and dam and the name of the country in whose Stud Book the horse is registered together with the Stud Book Volume and page number of its registration, name of owner(s) and colours, and must be accompanied by an RCN (see Regulation 23).
77. Entries are accepted on the basis that a horse must be qualified for a given race at the closing date of entries, unless otherwise specified. It is the duty of the person making an entry to check, and, if necessary, to prove to the satisfaction of ARO that the horse is qualified to be entered and run. In the event of an entry being made for a horse which is subsequently proved to be not qualified for the race in question the entry fee will be forfeit to ARO.
78. No horse shall be entered in the ownership or name of a Disqualified Person and if, after the time of entry, the Owner becomes a Disqualified Person the entry for that horse shall be void and the entry fee will be forfeit to ARO, unless the BHA or ARO shall otherwise decide.

TRANSFER OF ENGAGEMENTS

79. Where the ownership of a horse changes, any engagements it may have will only be transferred to the new owner on receipt by the ARO Office of the written acknowledgement of both parties that such engagements are to be so transferred.

DECLARATIONS, DIVISIONS, BALLOTS, RESERVES AND THE DRAW

80. In every race there shall be a declaration of runners by 10:00am, 48 hours before the race, or such other period, before the race as published in the conditions of entry. A horse may only be declared to run under this Regulation for one race at any meeting.
81. Every declaration of a runner must be lodged by telephone or online or by such means as may be agreed with the ARO Office within the dates and times fixed for declarations in the conditions of the race unless the provisions of Regulation 84 apply.
82. All declarations made under Regulation 80 shall state the name of the horse, the name of the Rider, the name of the Meeting and the number of the race and any headgear the horse will wear and if a tongue strap is to be worn. In the case of declarations made by email the person making the declaration should check acknowledgement of the receipt of the declaration to ensure that the transaction has been properly completed. (Note: A declared Rider may be substituted if the requirements in Appendix 39 are satisfied).
83. If a horse, declared in accordance with Regulation 80 and not subsequently eliminated, does not run, the Trainer will be liable to a fine, unless he can satisfy the Stewards by the production of a veterinary certificate or he has self-certified the horse as a non-runner specifying the reason for it not running or by any other means that factors beyond their control prevented the horse taking part in the race. If a Trainer, or their representative, considers that the reason for the horse not running was due to the state of the going or other circumstances outside their control he is entitled to request the Stewards to waive the fine. If the Stewards are satisfied with the explanation they may waive the fine (see Appendix 26 for satisfactory reasons). When a Veterinary Certificate is submitted it must clearly state the time and date of the veterinary examination and the condition which renders the horse unfit and it must be signed by a Veterinary Surgeon registered in Great Britain who is at the time neither the owner, nor the trainer, of the horse (see Appendix 26). No fees including any entry or declarations fees are refundable where a horse has been made a non-runner.
84. In any race where five or less declarations to run are received by the ARO Office by the time for declaration to run the said time for a declaration to be made shall be reopened until 11:00am on the same day, or such other time as ARO shall decide. No such declaration shall be subject to withdrawal once made during this extended time period. If a horse is already declared to run in another race on the day in question any declaration made under these provisions for the same horse will be deemed invalid. Where fewer than five declarations to run have been received by the ARO Office after the reopening time in this Regulation the race may be cancelled at the discretion of ARO but this provision will not apply to any Group or Listed race or to more than one race at any race meeting.
85. If at the time fixed for making declarations under Regulation 80 the number of engaged horses exceeds the Safety Factor in any race, either that race will be divided and/or the number of runners in it in excess of the Safety Factor will be eliminated by ballot. ARO shall announce whether division or reduction of numbers by ballot or a combination of these shall take place.
86. Where it has been decided that races will be divided:
 - (i) ARO will announce the maximum permissible number of divisions of any one race and the maximum number of declarations to necessitate such division; declarations will be reduced to the Safety Factor by ballot in each division;
 - (ii) ARO will announce the maximum number of races to be divided at a meeting. Where this necessitates the reduction of the number of runners in excess of the Safety Factor in any race at that meeting by elimination of horses by ballot, it will endeavour to ensure that no race with similar conditions and of similar distance will be so reduced at two consecutive meetings.

- (iii) In races other than Handicaps runners will be split between the divisions so that wherever possible, where an owner or trainer has two or more runners in a race, ARO will endeavour to split such horses between the divisions.
- (iv) Where it has been decided that a Handicap Race shall be divided, the runners will be ordered by weight and allocated to alternating divisions, and thereafter wherever possible where an owner or trainer has two or more runners in a race, ARO will endeavour to split such horses between the divisions.
87. Where it has been decided that races will not be divided and at the time for declaration under Regulation 80 the number of horses declared to run in the race exceeds the Safety Factor the number of runners will be reduced to the number permitted by the Safety Factor. Where declarations are to be reduced by elimination or ballot, it shall be in accordance with the procedure laid down in APPENDIX 20.
88. A maximum of 2 reserves may be allocated for any race at the discretion of ARO. Such a reserve may take the place of a horse previously declared under Regulation 80 up to not less than three-quarters of an hour before the time fixed for the race and must comply with the provisions of Rules (E)7 and (E)15 of the BHA Rules of Racing. Subject to the discretion of ARO, a reserve will be treated in all respects the same as any declared runner and the owner will be liable for all entry and race day fees.
89. Subsequent to the operation of Regulations 80 to 88 the draw allotting positions at the start shall be made at the ARO Office.
90. Once the draw has been made under Regulation 89 no alteration shall be made except that by express permission of the Stewards the number of a horse may be added where that horse has been duly entered and declared and not withdrawn or eliminated but has been omitted from the list of runners. Where the addition results in the elimination of another horse, the added horse shall take the number and draw position of the eliminated horse; but where no elimination is necessary the original draw shall stand and the horse which has been added shall be given the highest number.
91. Where a reserve horse is to run, that horse shall take the draw position of the horse that it is replacing.

PART 9

FEES AND FORFEIT LIST

92. A fee is due to be paid in respect of every registration made under these Regulations. An administration charge, to be determined by and made at the discretion of ARO, will be due in respect of any registration which is registered less than two weeks before close of entries. An additional administration charge, to be determined by and made at the discretion of ARO, will be due in respect of any registration made within three working days of the close of entries for any meeting.
93. The person(s) in whose name(s) as owner(s) a horse is entered is/are liable for the entry fee due under the conditions of the race, and for the declaration fee, and where a horse is owned by a partnership the partners shall be jointly and severally liable. A failure to pay entry fees or any fine or deposit within what ARO deems to be a reasonable time may cause the relevant account to be suspended and entries in respect of that account unable to be made. In addition, ARO may cancel the registration of such person under Regulation 1(xiii).
94. No entry fee or stake is payable in respect of horses entered for races which are never run or void or where the said horse is eliminated under the provisions of Appendix 20. All payments made prior to a race in such circumstances shall be returned. All fees, including entry fees, and all fines and deposits forfeited shall be paid to ARO unless otherwise stated in these Regulations and will be published in the ARO Racing Calendar.

95. ARO may keep a record of all Arrears due to it (the Forfeit List) and authorise the publication of the Forfeit List. The Forfeit List may include the sums due, the name or names of the Person or Persons from whom the sums are due and such other information as ARO may consider appropriate. The Forfeit List is available on the ARO website. A Person's name may be removed from the Forfeit List only on payment of any published Arrears direct to the ARO Office. Where a Person's name appears on the Forfeit List, **or** any equivalent list published by a Recognised Racing Authority, that Person becomes a Disqualified Person.

 - (iv) fail to comply with a requirement of BHA or ARO unless in exceptional circumstances the person concerned is able to satisfy the BHA or ARO that he had a satisfactory reason for doing so.

APPLICATION OF REGULATIONS, INSTRUCTIONS AND APPENDICES

114. These Regulations apply to all persons who have agreed to be bound by these Regulations and the overseas owners, riders and trainers of horses trained outside Great Britain and which are entered to run under these Regulations are subject to these Regulations and are deemed to have knowledge of them howsoever amended.
115. A person who has agreed to be bound by these Regulations shall have no right under the Contracts (Rights of Third Parties) Act 1999 to enforce any provision of the Regulations against any other person from time to time bound by the Regulations.
116. Every person shall comply with every Instruction issued by ARO and duly published or any instruction issued by the BHA including Instructions issued in the Appendices to these Regulations. Each Person must also comply with any instructions given by the Stewards of a meeting or any request requiring the permission of the Stewards.
117. Neither ARO nor its employees or agents shall be liable to any Person for any act done or omission made in the bona fide discharge or purported discharge of any duties on the part of any such employee or agent under or pursuant to these Regulations. Nothing in these Regulations shall exclude liability for death or personal injury resulting from negligence.

EXPRESSIONS

118. Words importing the masculine gender shall include all other genders and the singular shall include the plural and vice versa.

PRIZE MONEY

119. Prize money shall be distributed in accordance with the conditions of the race.
120. Where all prize money placing's are not filled, the prize money for the unfilled placing's will not be paid.

HANDICAP RACES

121. In making a Handicap in relation to a horse for the purposes of a Handicap race, the Handicapper shall allot the weight to be carried by the horse in accordance with the Handicap rating of the horse. The weights for all Handicaps will be allotted after the close of entry, unless the race conditions otherwise provide, and subsequently distributed by ARO to trainers. No alteration shall be made to a weight after such distribution except that a correction may be made when, through an administrative error, an incorrect weight has been distributed. Such alteration may only be made up to the day immediately prior to the declaration of runners under Regulation 80. Horses trained in Great Britain who have raced abroad may, at the discretion of the Handicapper, have that form taken into consideration in respect of deriving a Handicap Rating in accordance with the provisions of Regulations 123 and 124.
122. Irrespective of any other provisions, the Handicapper may decline to allot a horse a Handicap Rating for a Handicap Race if, in their opinion, he does not have sufficient information on which to allot a Handicap Rating.
123. **Deleted**
124. No horse shall run in a Handicap Race unless, up to and including the Sunday previous to closing:
- (i) it has run in two Races run under any Rules or Regulations recognised by the International Federation of Horseracing Authorities for Arabian Horse Racing, or
 - (ii) it has won a Race under these Regulations.
125. Subject to the application of Regulation 126, the top weight in Handicaps shall be no more than 10st 4lb and the bottom weight not less than 8st 2lb, or as ARO otherwise decides.
126. In all Handicap Races if, after the time for declaration under Regulation 80, the highest weight declared to run is less than the highest weight as set out in the conditions of the Race, or where no such weight is stipulated is less than the top weight as laid down in Regulation 125, the ARO Office shall raise the weights to the relevant highest weight and all other declared runners equally. For the avoidance of doubt this Regulation will apply whenever a Handicap Race is divided under Regulation 86.
127. In all Handicap Races, the Handicapper may frame the Handicap down to weights below the bottom weight permitted in the race conditions but if, after the time for declarations under Regulation 80 and the operation if necessary of Regulation 126, the weight of any horse including penalties is then below the permitted bottom weight then such weight shall be raised to the permitted bottom weight.
128. When a horse wins a Race:
- (i) after the Time of Entry laid down in the conditions of the Race; or
 - (ii) before the Time of Entry but after the provisions of Regulation 133 take effect,
- such horse shall incur a standard penalty of 6lb for each Race won.
129. Whenever a penalty is incurred it shall then be added to the final weights as increased under Regulation 126 or, if no such increase was made, to the original weights. This penalty may, if necessary, increase a weight above the top weight as stipulated in Regulation 125 except that no such increase shall cause any horse to have a cumulative weight of more than 11st in a Handicap Race.
130. Handicap Ratings will not be allocated to three-year-old horses before 1st July.

131. For the purpose of determining whether a horse has run in the number of races required by Regulations 123 and 124, no account is to be taken of:
- (i) Any walk-over,
 - (ii) Any race where the horse does not start or finish;
 - (iii) Any race where disciplinary action was taken against the rider under Rule (F)37 of the BHA Rules of Racing (failure to obtain the best possible placing) and the Handicapper decides that no account is to be taken of such a run. Where any appeal against disciplinary action is successful the run of the horse in respect of which such action was taken may once again be taken into account for the purposes of Regulations 123 and 124 but only with effect from the date of the appeal decision.

CONDITIONS RACES AND CLASSIFIED RACES

132. Weights to be carried in Conditions and Classified races will be as determined in the conditions of the Race. Penalties as laid down in the conditions of the Race must be carried in the Race. No horse shall be eligible to run in a Conditions or Classified Race which has specified conditions on entry related to rating bands unless it has been allocated a Handicap Rating under Regulation 123 by the time of entry.

APPLICATION OF HANDICAP RATINGS

133. Handicap ratings shall be published on the ARO website. For the purpose of determining whether a horse qualifies for a race, a Handicap Rating which is published on a Tuesday of a particular week shall, unless ARO directs otherwise, apply for races closing on or after that Tuesday until such time that a new Handicap Rating is allocated and published. For the avoidance of doubt the provisions of Regulation 94 will apply in all cases where, as a result of this Regulation, a horse is subsequently not qualified in accordance with the conditions of the race at the time of entry.

MARES ALLOWANCES

134. Fillies and mares shall receive the following allowances other than in any Handicap Races:
- (i) All Group Races, Listed Races, Conditions Races, Novice Races and Maiden Races – 4lbs.

APPENDIX 3

CONTAGIOUS AND COMMUNICABLE DISEASES

Contagious Diseases

Trainers are warned that under no circumstances should they bring to racecourses horses affected with ringworm or any other contagious disease. If visible evidence of skin disease still exists a Trainer should not take the horse on to racecourse premises without first obtaining a certificate of non-contagiousness from a Veterinary Surgeon who is unrelated to and independent of the Owner of the horse, the Trainer of the horse and any Person who is employed by the Trainer stating that, following appropriate examination of the horse, he is satisfied that the condition is not now contagious to other horses. The certification must be completed using the prescribed form and must be available on request, as evidence to the Stewards.

Stewards will exercise fully their powers under Rule (H)7 of the BHA Rules of Racing where a horse is found to have been brought onto a racecourse when in the opinion of the Veterinary Officer it appears to be suffering from a contagious disease and no certificate of non-contagiousness is produced.

However, if a Trainer decides not to run their horse, Stewards will take this into account when deciding upon the level of penalty, and also order that the fixed penalty for not running should be waived.

Skin scrapings may be taken from any horse which appears to be affected with any form of ringworm and if the culture of these scrapings subsequently proves positive, Disciplinary action may be taken.

Trainers are required to comply with the current Bio-Security protocols in place at any racecourse where meetings are held. These protocols will be communicated by ARO to Trainers as and when necessary.

Duty to Report Communicable Diseases

Where a Trainer has been informed by a Veterinary Surgeon, or should otherwise be aware, that any horse under their control is likely to be or is infected with

- (a) diseases covered by the Horserace Betting Levy Board Codes of Practice on Equine Diseases (see www.hblb.org.uk) apart from artificial insemination;
- (b) any notifiable disease that can affect horses as named in section 88 of the Animal Health Act 1981 and the Diseases subject to the infectious Diseases of Horses Order 1987;
- (c) diseases subject to the Specified Type Equine Exotic Diseases,
- (d) any disease added to the Communicable Diseases List on the BHA website, or
- (e) Equine Influenza

the Trainer must observe any statutory requirements and also immediately make a report to the ARO Office, and not remove, or allow to be removed, any horse under their care or control from the premises until directed otherwise by ARO.

Before giving any such direction ARO may obtain the advice of a Veterinary Officer, which is to be given in consultation with the Trainer's Veterinary Surgeon.

PARADE RING

No horse will be allowed to leave the Parade Ring to proceed to the start before the signal to mount is given, unless the Owner or Trainer first obtains the permission of the Stewards. The BHA give the following ruling on the procedure to be adopted when a horse is unavoidably delayed in the Parade Ring and cannot leave to go to the start in company with the other horses. On these occasions those horses which have not already left for the start shall be allowed to remain in the Parade Ring until the horse concerned is ready to go down to the start with them. This does not prevent Stewards from giving special instructions in cases of emergency.

Horses must be paraded by the time indicated on the timetable in the weighing room, and before the signal to mount. Armbands must be worn if a paddock sheet is obscuring the horse's number cloth. Armbands are available from the weighing room.

APPENDIX 8

ADVERTISING IN THE PARADE RING

No sheet or rug used in the Parade Ring on any racecourse may bear the name or initials of the Owner or Trainer in letters larger than 4.5 inches high, nor any motif or logo applicable to the owner or trainer more than 64 square inches, and that these must only appear on the corners of the sheet or rug nearest to the hindquarters of the horse. No other form of advertisement will be permitted on the horse, its equipment or attendants except for a sponsor approved by ARO or for advertisements for the sponsor in their sponsored races. No rider may carry any form of advertising material on any part of their clothing or equipment in the parade ring or while riding in a race except for a sponsor

approved by ARO. An approved sponsor must be registered with ARO on payment of a fee as determined from time to time by ARO, or registered with the BHA.

APPENDIX 9

TYING DOWN OF HORSES' TONGUES

On every occasion when a horse is to run with its tongue tied, the Trainer is responsible for showing the horse with its tongue tied to the Veterinary Officer on duty on the racecourse before it is allowed to proceed to the Start. Disciplinary action will be taken against any Trainer who fails to comply with this Appendix on each occasion that their horse runs with its tongue tied.

Veterinary Officers will take note of the biting of every horse brought into the Parade Ring and only bits which meet with the approval of a Veterinary Officer will be permitted. For the avoidance of doubt horses are not permitted to run in bitless bridles.

ELIMINATING OR BALLOTING PROCEDURES

ARO instruct that in accordance with Regulation 87 the following procedures for elimination or balloting will apply as stated below:

GROUP, LISTED, CONDITIONS, CHAMPIONSHIP AND CLASSIFIED RACES

Elimination will occur in the following sequence:

1. Horses that have not run in a race;
2. Horses with the lowest Handicap Rating or, in the case of any horse that does not qualify for a Handicap Rating, lowest assessment by the Handicapper;

HANDICAP RACES

Elimination will occur in the following sequence:

1. Horses rated 2lb above the top of the rating band for the race.
2. Horses rated 1lb above the top of the rating band for the race.
3. Horses with the lowest weights (once penalties have been added) commencing at the bottom of the list;
4. Where horses have identical Handicap Ratings, any horse that has incurred a penalty will be eliminated first (starting from the highest penalty), followed by any horse that has not incurred a penalty;

Note: All Handicaps will be published in Handicap weight order.

MAIDEN RACES

Protection from elimination will operate in the following order:

1. Horses that have run in no more than two races and have been placed in the first four at least once in those races;
2. Horses that have not run in a race;
3. Horses that have run in no more than two races;
4. Horses that have the highest Handicap Rating under these Regulations;
5. Horses with the least number of unplaced runs in races.

NOVICE RACES

Protection from elimination will operate in the following order:

1. Horses that have run in no more than two races and have been placed in the first four at least once in those races;
2. Horses that have not run in a race;
3. Horses that have run in no more than two races;
4. Horses that have run in three races and have not been placed in the first four in any of those races;
5. Horses that have won a race;
6. Horses that have the highest Handicap Rating under these Regulations;
7. Horses with the fewest unplaced runs in races.

NOTES APPLYING TO APPENDIX 20

Note: Priority will be given to those horses with the greater number of placing's.

Note: Where horses have identical performances or Handicap Ratings, horses previously eliminated during the current year from a race run under these Regulations that is not a Handicap Race shall be protected from elimination first, and priority shall be given to the horse with the greatest number of such eliminations.

Note: The time for the above criteria applying will be up to and including the **Saturday** previous to closing. If the race has a supplementary entry stage the Saturday previous to closing will mean the Saturday previous to the closing of the supplementary entry stage.

Note: Random balloting will apply where horses have identical criteria within each category.

Note: Race means any race, except a Jump Race, run under the BHA Regulations for Arabian Horse Racing or under the Rules of any Recognised Racing Authority.

All Veterinary Certificates relating to non-runners must comply with paragraph 49 of the Race Entry Code of the BHA Rules of Racing, and must be received within 7 working days of the race by the ARO Office.

Self Certificates

In circumstances where a horse is made a non-runner with the reason 'self-certificate', ARO will suspend the horse from running in future races in Great Britain for the period of 7 days starting with the day of the race for which the horse was a non-runner.

APPENDIX 27

FINES AND PENALTIES

Any fines received at a race meeting must be paid to the ARO Office within 5 days by ARO-registered Trainers, or will be charged to the Trainer's Weatherbys account for BHA-licensed trainers. Subject to the hearing of an appeal, failure to pay may result in a Trainer being barred from entering or declaring horses. The penalties imposed will be those for the equivalent Rule under the Rules of Racing. The table below is intended as a reference guide only.

LIP CHAINS

The BHA give notice that lip chains may not be worn by horses on the racecourse unless approval has been obtained from a Veterinary Officer. The lip chain must be used by an experienced handler in a sensitive manner and Stewards have been requested to take disciplinary action against any person who uses a lip chain to the contrary. See Equipment Code of the BHA Rules of Racing.

FOREIGN PERFORMANCES

See Regulations 49 and 50.

APPENDIX 32

EXAMINATION OF PREVIOUS RUNS FOLLOWING AN IMPROVED PERFORMANCE AND PERFORMANCES OF HORSES

Whilst there will be no departure from the current practice of Stewards enquiring on Raceday when a horse appears not to have been run on its merits, it is not always until improvement is revealed that there is sufficient evidence to warrant an enquiry. As a result, if in the opinion of ARO and the Handicapper, after reviewing a video recording of the relevant races, they consider there is marked improvement in a horse's performance, the matter will be referred to the BHA Office for consideration of an enquiry under Rules (F)37 – (F)41 of the BHA Rules of Racing and those involved will be informed of such referral.

Trainers may be approached by a Steward following the performance of their horse to ask if they are able to account for its running. The Trainer's reply may be publicised and/or a Stewards' enquiry may be held. Failure by the Trainer to disclose such information will result in a report being submitted to the BHA. This procedure in no way precludes any Trainer who wishes to make representations personally to the Stewards concerning their horse from appearing before them and it does not limit the powers of Stewards to hold full enquiries.

APPENDIX 33

HORSES LED ON RACECOURSE PROPERTY

Rule (E)26 of the BHA Rules of Racing applies.

APPENDIX 34

USE OF RACECOURSE STABLES

Unless ARO otherwise direct, any horse declared to run under Regulation 80, which has not been notified as a non-runner, must be stabled in the official secure racecourse stables no less than 45 minutes before the advertised time of the race in which the horse is due to run. A failure to comply

with the preceding requirement will result in a penalty being imposed on the Trainer unless the Trainer satisfies the Stewards that the reason for non-compliance was due to circumstances acceptable to them.

Persons requiring access to the official secure racecourse stables must have a personal photographic Stable Pass issued by ARO (for Trainers registered by ARO) or the BHA (for Trainers licensed by the BHA) (or, in the case of staff from abroad associated with a horse running from outside Great Britain, suitable photographic identification i.e. a passport or driving licence) for inspection, and must sign the relevant form. In the case of staff from abroad requiring access to the racecourse stables notification must be made to the ARO Office in advance of Raceday of such persons with their name and date of birth.

Trainers are reminded that they are at all times responsible for the horses in their care and that the security precautions provided at the official racecourse stables in no way relieves them of this responsibility. In particular, Trainers are held responsible for the security of their horses if a horse is left unattended in the stables.

Permission may be given by ARO or a representative of the Managing Executive of a racecourse for companion horses, ponies or other animals to use the racecourse stables provided that they are vaccinated in accordance with these Regulations.

APPENDIX 35

RESTRICTIONS ON SUBSTANCES ADMINISTERED TO AND TREATMENT OF HORSES ON RACECOURSE PREMISES AND POSSESSION OF PROHIBITED SUBSTANCES OR A PROHIBITED METHOD

Rule (E)43 and (E)44 of the BHA Rules of Racing apply.

APPENDIX 37

MINOR OFFENCES

Owners, Trainers and Riders will not necessarily have to appear before the Stewards concerning breaches of the Regulations deemed to be minor i.e. for which standard fines or penalties are imposed. In such cases a Steward will approach the person concerned to ask if he is willing for the matter to be considered by the Stewards in their absence. This procedure in no way precludes any person who wishes to make representations personally to the Stewards concerning their case from appearing before them and it does not limit the powers of the Stewards to hold full enquiries.

APPENDIX 38

NAMING REQUIREMENTS

Subject to the discretion of ARO, names cannot be accepted if they:

- (a) are already registered to a horse currently registered with ARO or already registered to a sibling or parent of the horse in question or liable to cause confusion;

- (b) are the name of a public person, without that person's or their family's permission, or names of commercial significance without the appropriate permission;
- (c) contain numbers or numeral suffixes;
- (d) are suggestive or have a vulgar, obscene or insulting meaning, are in poor taste or may be offensive to religious, political or ethnic groups;
- (e) start with a sign other than a letter;
- (f) have more than 18 characters, including spaces.

No horse's name can be changed from the name originally registered by the Stud Book of the country of birth, unless ARO directs otherwise.

APPENDIX 39

LATE CHANGE OF RIDER

A declared Rider may be substituted after the time of declaration under Regulation 80 where either ARO or the Stewards are satisfied that any of the following circumstances apply and the new Rider can be weighed out within the appropriate time :-

- (a) the declared Rider is ill or unfit to ride;
- (b) the declared Rider is not qualified to ride;
- (c) the substitute Rider was declared to ride another horse in the same race but the horse is unable to run;
- (d) the declared Rider is due to carry 1lb or more overweight;
- (e) any other circumstances ARO or the Stewards consider acceptable.
