

Horse Population Report

Updated on 30 November 2025

Introduction

Welcome to the latest update on the Racehorse Population from the British Horseracing Authority.

The aim of this document is to give stakeholders and the wider Public an insight into the current state of the Horse Population in Great Britain. It is hoped that this transparency will ensure that all decision makers have access to the key data required to help British Racing deliver a Competitive and Compelling product to stakeholders, racegoers and the wider public.

If you have any questions regarding the content of this report or suggestions for how it could be improved further, please contact Joe Yates – jyates@britishhorseracing.com

Definitions

This report uses the Horses in Training returns from the Weatherby's Racing Administration System, this is completed by trainers and should be updated whenever a horse enters or leaves training in their care as part of the conditions of their licence.

Horses in Training

Unless otherwise stated, snapshots of Horses in Training will be from the 15th day of the month in question and year to date figures will be up to and including the date titled at the front of the report.

Horses' ratings will be taken from the most recently published ratings by the BHA Handicapping Team, which is currently at 7am each Tuesday morning. For example, if looking at the Horses in a particular rating band for July 2011, the horses in training number will be from Friday 15th July 2011 and ratings, where possible, will be assigned to each horse from the ratings published by the BHA Handicappers on Tuesday 12th July 2011.

The Gender of a horse will be taken from the reporting date in question, regardless of whether this has since changed.

In the case of YTD reporting, where a horse's gender or training type has changed in the year-to-date period, the most recent is taken.

This report does not count any horses that are temporarily racing abroad for GB Trainers at the time of reporting.

Yearlings are not included in total counts of flat and/or dual horses but will be sometimes shown separately for information purposes.

Yearlings and two-year-olds are not included in total counts of jump horses or counts of jump horses that include dual horses but will be sometimes shown separately for information purposes.

Yearlings, two-year-olds and three-year-olds are not included in total counts of Hunter Chasers but will be sometimes shown separately for information purposes.

Yearlings and two-year-olds in training that are recorded as dual horses have been re-coded as flat horses.

Hunter Chasers are not included in any counts of Jump Horses or Total figures but will be sometimes shown separately for information purposes.

Horses' training locations are defined by the trainers' primary training location. Training regions are defined the same as regions for the Fixture List; 'North' is north of latitude 53.42911, 'South' is south of latitude 51.88002 and 'Midlands' is anywhere in between. Training centres are defined by postcodes and surrounding areas.

Runners

Unless otherwise specified, Total Runners and Individual Runners metrics only counts runners that ran in GB races including any voided races. Withdrawn horses are not included.

Hunter Chases are not included in this section but will be sometimes shown separately for information purposes.

Total Runners is a count of all runners in races, whilst individual runners only counts each individual horse once.

Monthly Horses in Training
