

All-card pre-race examinations – provisional schedule for 2025

The following is a list of dates and locations at which **all-card pre-race examinations** are currently scheduled to take place during 2025. All runners in all races at these fixtures will receive:

- A cardiac assessment using a stethoscope
- A trot up over approximately 25 metres, with the horse asked to trot up and back in a straight line on a firm surface
- An examination of the limbs by palpation.

These standard methods of pre-race check will always be performed by BHA veterinary officers in or near the racecourse stables. We are very grateful in advance for your assistance and cooperation with this process.

The list below may be subject to change, and it is possible that more fixtures will be added as we move through the year. We would always recommend contacting the BHA proactively and well in advance of raceday to discuss any horse that is mildly lame.

Please do this by emailing: vetreports@britishhorseracing.com.
